"I think" those who are taking this course should focus on the present moment within this country we live. The Constitution is being watered down by increasing the amount of policies being passed. This watering down of the Constitution dramatically affects you, your children, and your children's children. It also affects the entire world. WE THE PEOPLE must look at this with the eyes of an eagle. WE must ask critical questions that requires critical thinking. If discussing and expressing our opinions will help raise the consciousness of the people, then that's what we must do!

We are being sold the idea of "Democracy." What does this word mean? Where did it originate from? Why is it not written within the US Constitution? Why is it not in the "Pledge of Allegiance?" If we are to TRULY understand the constitution and it's purpose, we must ask these questions and so much more. Where there any other people who helped draft the Constitution that was excluded and written off? If so, who and why?

In order to fully understand something, you must first have the knowledge of that something. Having that knowledge then brings the wisdom to speak upon that knowledge of that something... which then gives birth to the understanding of that something, and having it understood.

Within the first week we learned why this document was drafted. I've heard the word "democracy" thrown around but the word never appearing in the Constitution. We need to expand upon that! There's 'gotta' be a reason, right?

Knowledge is power my good friends and ignorance of the law is no excuse!

Peace.
