separation of powers

Listened tonight to C-Span and Feinstein was complaining about the CIA. She doesn't mind when the NSA spies on us, the DoJ sends rifles to drug dealers in Mexico and one of our boxer agents gets killed by one of those guns (hundreds more in Mexico), the president and sec of state lie and cover up on Behghazi or the IRS is used to suppress political opponents of the president

BUT ,, when the CIA spies on her well that is another matter. She also doesn't want me to own a gun but she packs heat since the SF shoot out by Dan White. She packs heat - we can't.

feinstein:

"I have grave concerns that the CIA's search may well have violated the separation of powers principles embodied by the United States Constitution, including the speech and debate clause," she said. "It may have undermined the Constitutional framework essential to effective congressional oversight of intelligence activity or any other government function."

So what is she going to do? Republicans already rolled over on the debt so we installed an imperial presidency - who gets dissed by Putin. We get dissed by the president so stuff indeed does run downhill. Diane is getting a taste of her own medicine.

>The inspector general of the CIA has turned the matter over to the Justice Department for investigation, Feinstein said.

Interesting issue ... in a government where there is no separation of powers and a guy like Holder who has no morals or ethics in charge of the DoJ ... how do you establish separation of powers when congress gave all theirs to the president and he is corrupt too?

Who has standing to sue? Holder has already said he is not about to let another independent counsel get loose on their corruption.

And what about discovery ... like these guys think the law does not apply to them ... like Clinton used the DoJ to defeat the legal rights of Paula Jones and still paid no price for that as the issue went to Lewinsky having his semen on her dress. The special counsel started in on Whitewater and missing

papers that mysteriously appeared if memory serves. Swung into a Lewinsky so that even Beyonce is now using Lewinskys to teach young impressionable girls morals - Democrat style.

Just think of all you could get on these people through discovery. Crooked payoffs to unions and ACORN.

And we do get some discovery already in real time via Snowden (my hero):

Snowden accuses Senate intelligence chair of hypocrisy over CIA disclosures

NSA whistleblower accuses Dianne Feinstein of double standards, pointing out her lack of concern about widespread surveillance of ordinary citizens (I did that too).

and

CIA's director, John Brennan, who strongly denied "hacking" the committee's computers

So who are we to believe? Would be cool if Snowden still has a back door to all governmental communications and emails. And then these government folks have to start considering that they have to live in a world where their deception catches up with them.
